With our SmartSubscription optimization service we help you **improve 2 key areas:**

What you'll get

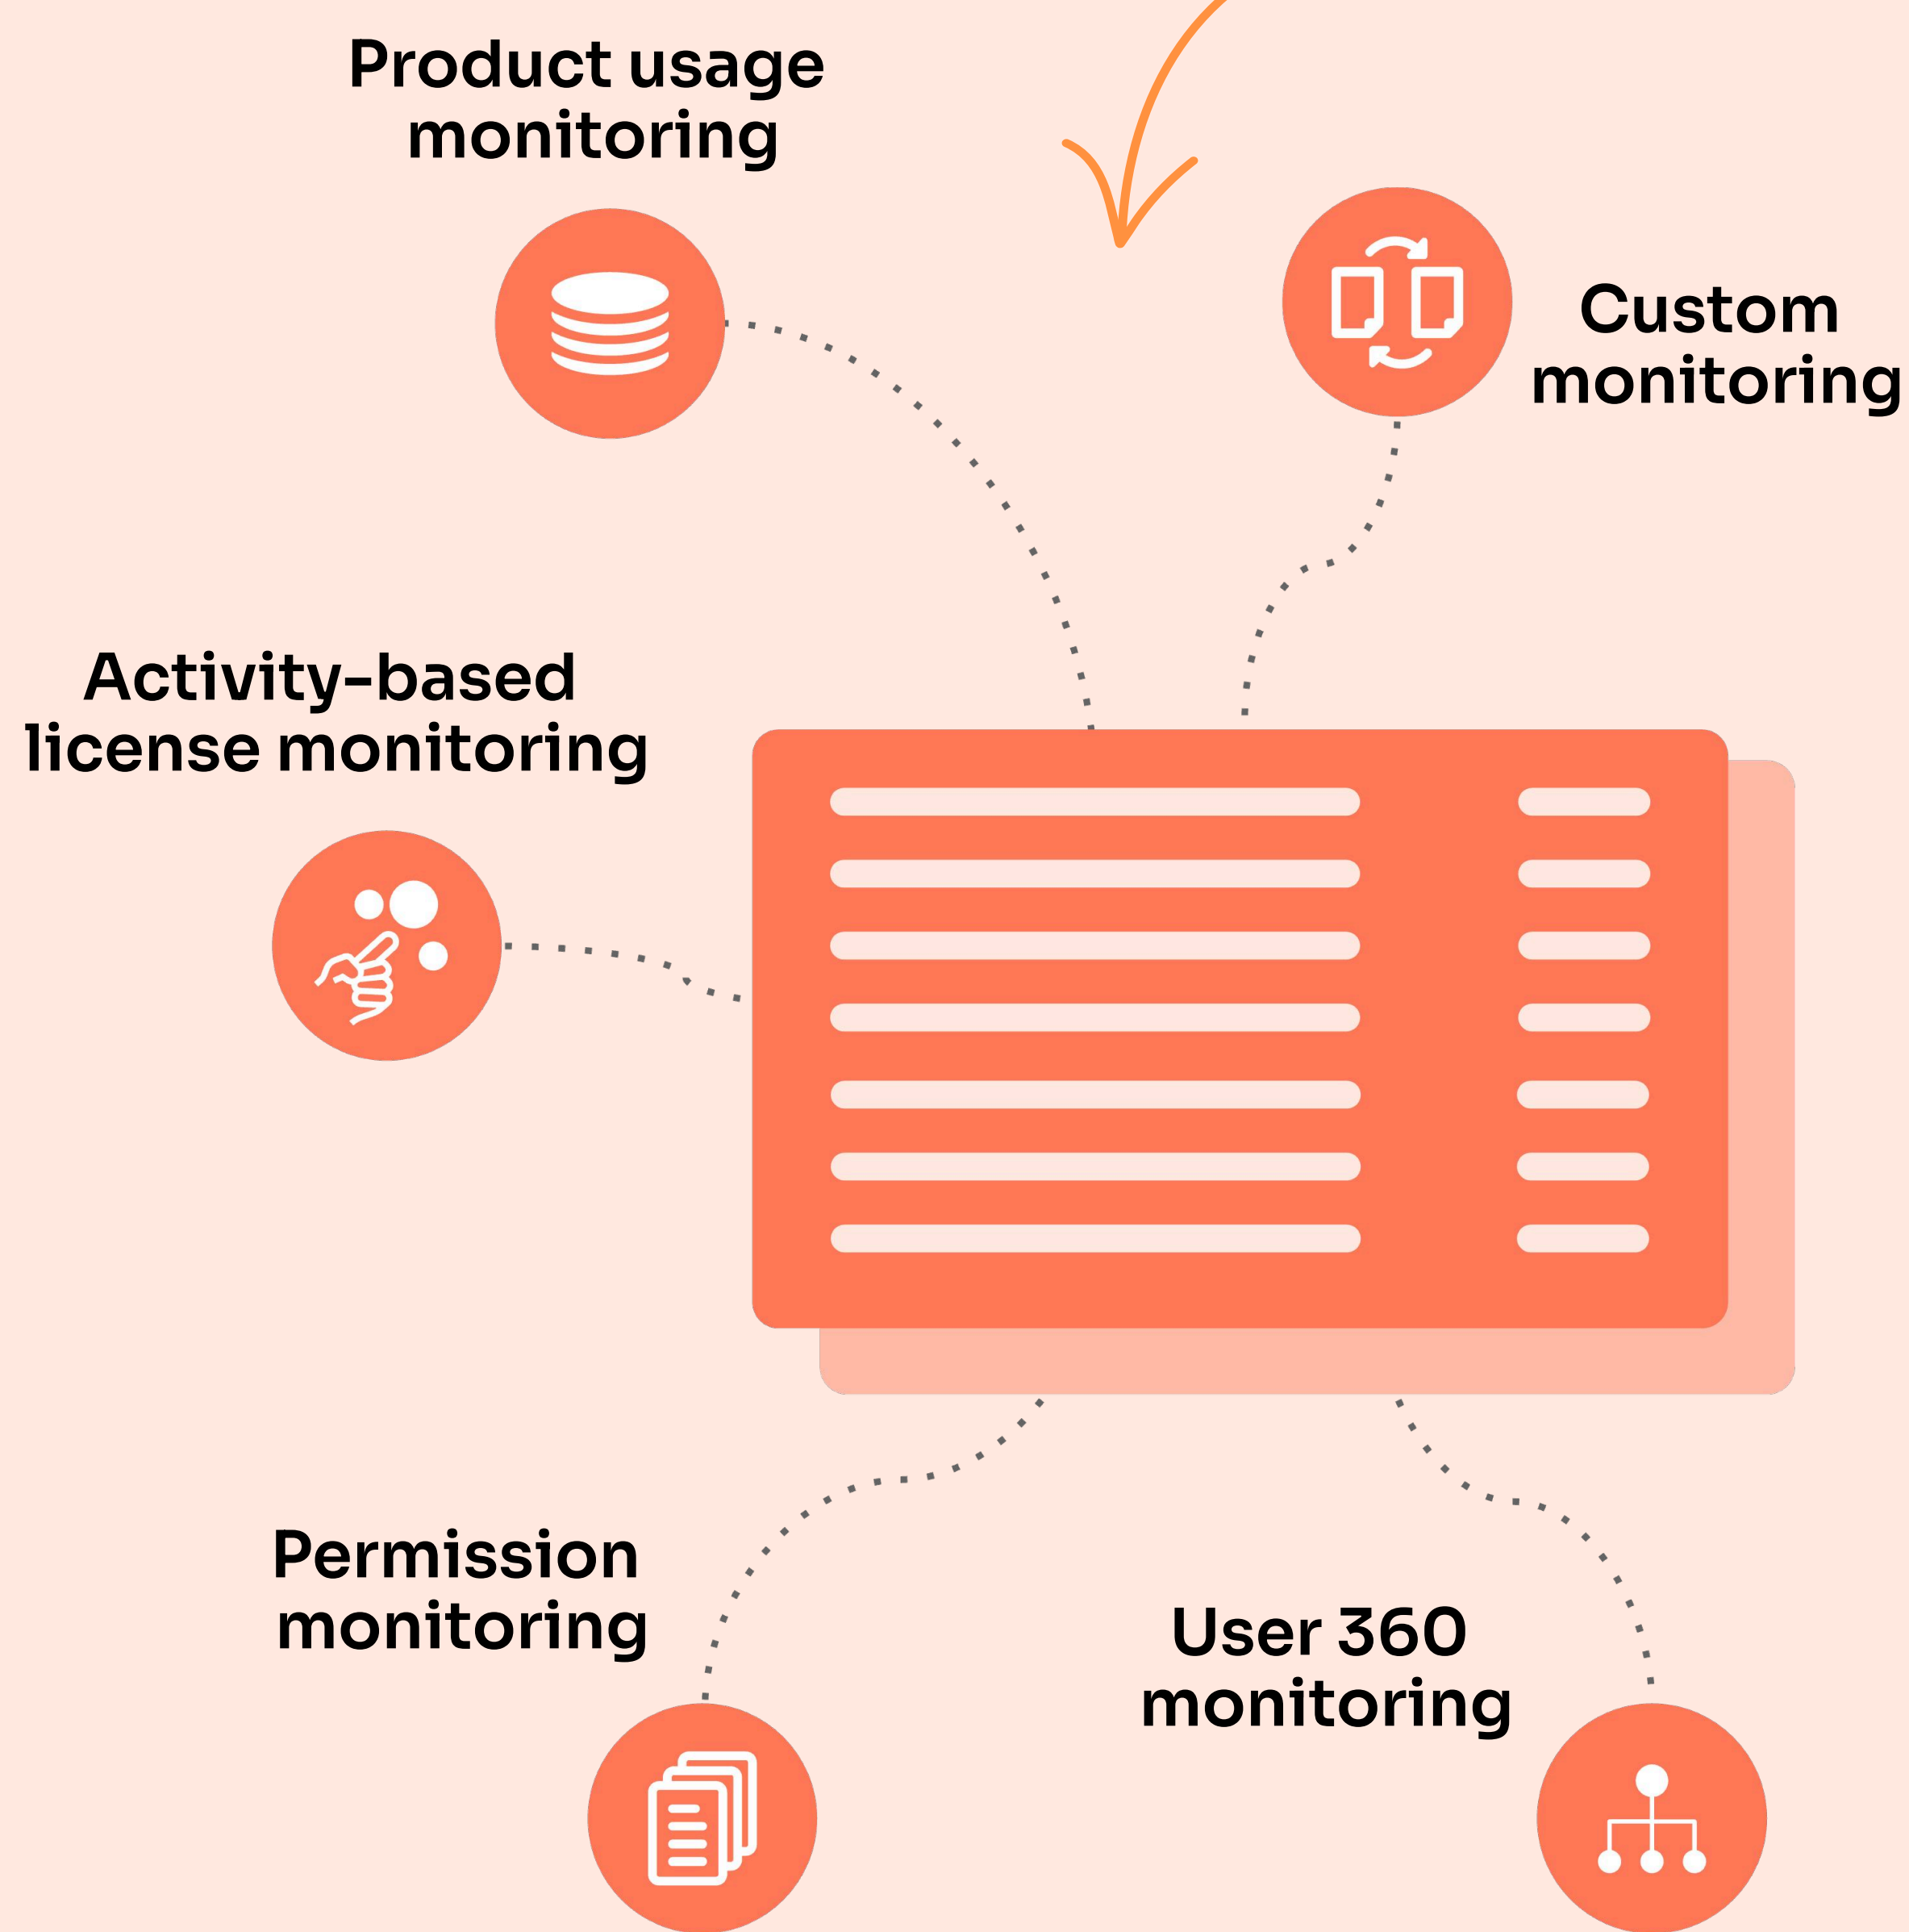

Simplified **platform monitoring**

Save countless administrative hours on platform monitoring. Instead of time-consuming manual research, our service provides a single, intuitive report to instantly analyze user permissions. Easily verify the right people have the right access without the manual work.

Integrated **license control**

Move from reactive to proactive license management. SmartSubscription identifies truly inactive users by analyzing real platform activity – not just login counts.

SmartSubscription relies on **5 key optimization capabilities!**

Engaging a SmartSubscription expert is a smart decision!

- ✓ Eliminate manual effort with clear insights into activity metrics
- ✓ Align licenses to your strategic needs with our license advisory
- ✓ Reduce risks with continuous monitoring and proactive optimization
- ✓ Ultimately, maximize your ServiceNow licenses ROI
